GOVERNOR D'AMICO.

The new Governor's address, on taking office, is a most important state paper, presenting new political and economical views which will be read with pleasure by the people, and although we cannot agree with his H.E., in regarding the progress of our railways too much for the country, still we accept cordially his promised administrative prudence. We for our part believe that Buenos Aires would be twice the province it is, but for the excessive prudence of its rulers. The prudence of our public men 20 years ago, when the legislature was discussing the Great Southern Railway concession was such, that but for the spirited conduct of Mr John Fair and the late Mr. Thomas Armstrong, the whole scheme would have fallen through, and perhaps now we should be constructing this railway to San Vicente or Ranchos! Messrs. Fair, Armstrong, and a few others made up the deficit in the guarantee, which the London people demanded, and which the Government and Legislature of Buenos Aires through excessive prudence refused to give. Governor D'Amico says, "In three years we have doubled our railways and already we have in construction lines that will double that again. I do not think, gentlemen, it would be prudent to undertake any more, and the Province should restrict itself for the moment to completing those already begun."

These words coming from so high an authority as the Governor and on so solemn an occasion as that of taking office suggest the idea that the new Governor is but another edition of those old fogeys who have held Buenos Ayres so long down. The cheapest road that can be made in the country is the railway, and we want a railway to Trenquelauquen more than even a new Government House in La Plata. Private enterprize, private capital and private companies are willing to build the road on a guarantee so slender that the very Contribution Directa tax on the land out there will be more than sufficient to cover any deficit.

Governor D'Amico says that a new organization of and special legislation for the Western Railway are needed, and we fully agree with H.E. This line, once the best managed in the country, has of late greatly fallen off, and last winter the permanent way was so neglected that many persons were afraid to travel over it from Lobos or Moron. His Excellency's promise, therefore to reform the abuses that have crept into this concern will be endorsed by all.

Perhaps the most refreshing feature of this address is the new Governor's new views on tramways. From the reading of his speech we are to have tramways superseding railways in all parts of the camp, thus, as H.E. says, utilizing the Argentine horse, saving the country from the extravagance of steam coal, and calling into active service that phalanx of young Argentines, who in the great life struggle now going on in this country look to their Government for a preference and employment. These are the enunciations of the Delphic Oracle of La Plata, and are worthy all our attention, since they point to the new direction of the Provincial mind and the La Plata Government. But the new Governor redeems everything by his pledges to help emigration and start colonies. His great hobby, we learn, is the agricultural colony; and in the immediate circle of his friends he is known to be concentrating all his influence, all his talents, and all the collective energy of his new Cabinet to the studding of the province with new colonies. A programme so bright and good cannot fail; and if the Governor carries it out the people themselves will build the railways of which he is in such dread. The Buenos Ayrean horse is not tired; for the last twenty years he had too long a rest. He now wants to gallop ahead, and any attempt to check him or pull him in will result badly for the rider.

THE PROVINCIAL BANK.

From Dr. Rocha's lengthy message to the Legislature we extract the following interesting particulars of the working and flourishing condition of the great Bank of the Province. After paying a well deserved compliment to the managing Board, Dr. Rocha stated that the year 1883 had been the most prosperous in the bank's history. The fixed deposits at the end of the year amounted to 36,203,085 $m/n, commercial deposits 8,183,052 $m/n, making a total of 44,386,137 $m/n. These deposits at the end of 1882 only amounted to 40,037,092 $m/n. Taking into account the deposits of the central house and the branches, the deposits on 31st December 1883 amounted to 63,928,296 $m/n.

Bad debts which in 1882 amounted to 7,682,017 $m/n have been reduced by 715,664 $m/n; the outstandings to be collected in 1882 amounted to 50,802,019 $m/n, and bad debts figured for 16½ o/o of this amount; the present percentage is only 13⅜ o/o.

The exchange business of 1883 was large, amounting to 33,136,176 $m/n.

The 21 branches of the Bank worked with a capital of 8,143,683 $m/n, or nearly two millions more capital than in 1882. Their deposits shew an increase of 1,625,503 $m/n, and the "cartera" of 1,775,469 $m/n.

At present 29 branches and three agencies are working; very soon 14 new branches will be opened.

Compared with 1880 the exports of the bank have increased 24,328,452 $ m/n, from 39,599,844 m/n to 63,928,296 m/n. In 1880 there were only 15 branches; there are 14 more at present. The capital of the bank has also steadily increased, from 28,301,148 $ m/n in 1880 to 32,700,980 m/n in 1883; profits in 1880 stood at 3,183,037 m/n and in 1883 at 3,320,624 m/n.

In the last three years the accounts with the Governments have been nearly completely wiped off; in 1880 the National and Provincial Governments owed the Bank 27,158,945 m/n; the Nation owed 16,284,438 m/n, and the Province 10,874,507. In 1881 the Province gave the Bank 6 o/o bonds in payment; these were placed with much advantage in Europe.

In 1882 the National Government handed to the Bank 5 o/o bonds to the amount of 9,678,989 m/n in the first issue and of 6,854,376 in the second issue; the Bank has still a balance of 724,992 m/n against the Government.

The Bank is at present in a sound and flourishing condition, and its prosperity is daily increasing.

FRESH CAPITAL FOR THE PLATE.

The volume of business on the London Stock Exchange for the first quarter of 1884 was, according to the *Economist*, not half of what it was in the first quarter of 1882 or 1881; and the shrinkage in the London Bolsa business is so great that the subject is attracting the attention of the London financial organs. The matter is naturally one of much interest to this market, whose very life current is fresh supplies of foreign capital; and from the following remarks of the *Economist* it would seem that the accumulation of capital in Great Britain is in advance of the applications for new loans, etc.

The *Economist* says:—

"If it were true that our supplies of new investments are regulated by the Stock Exchange—if the Stock Exchange be the necessary intermediary between borrowers or promoters and the subscribing public—then we must in the past quarter have experienced one of the least fruitful seasons in this particular since 1879. Those who know Capel Court best will be the first to admit the present stagnation, and if corroboration be needed by those less conversant with that locality, appeal can be made to the London Bankers' Clearing-house returns upon the subject. These returns afford upon the Stock Exchange half-monthly settling days a fair insight into the activity of the traffic in securities; and the record indicates how material the falling-off must have been.

"Yet in contrast with this condition of affairs, and also with the dulness prevailing in the manufacturing districts, the supplies of new investments have certainly not been curtailed. As compared with the first three months of 1883 and 1882, the applications this year show a considerable expansion, and they bring us well on towards the activity displayed in 1881. This may be not a little at variance with our preconceived notions on the subject, but here are the actual figures:—

New Capital Applications—First Quarter.

	In Great Britain.	Partly Abroad.
	£	£
In 1884....	32,554,000	1,284,000
In 1883....	24,045,000	nil.
In 1882....	9,913,000	1,600,000
In 1881....	28,580,000	12,617,000

"It is admittedly one thing to offer a new investment, and another to get it subscribed; but there is good reason to suppose that the bulk of this £34,000,000 has actually been taken up, and this week's applications for the Argentine loan (subscribed for nearly five times over) indicates that there is plenty of money ready for acceptable securities backed by acceptable names. We can easily account for the bulk of these subscriptions. Home railways have alone demanded £9,300,000; colonial railways, £2,250,000; and foreign railways, £2,600,000, and it is quite certain that the great mass of this money was found without difficulty. The same may be said of the £4,000,000 net demanded by colonial Governments and city authorities (after making deduction for debentures falling due), and the £2,800,000 for home city loans is another certain item, while the Argentine loan accounts for £1,700,000. Beyond this, Land and Land Mortgage Companies have asked £2,750,000, and have obtained a good deal of what they have asked, while adding gas and water demands, we have, in a few words, accounted for £26,000,000. Of the remaining £8,000,000, comprising demands of all descriptions, we cannot speak with any certainty. But it may be said that many of them have offered sufficient inducements to the investor to obtain a response."

It will be seen from these figures that whilst in 1881 over 12½ millions sterling were borrowed for abroad this year for the same term only 1¼ millions were asked, which shows a most remarkable falling-off.

The point worthy of remark is, that the supply of capital in Europe is ahead of the demand, and we may expect to see much fresh money flow into this country through private channels, which is far more advantageous to the nation than if it came to us through the intermediate agency of the London Stock Exchange.

THE RACES.

The race meeting to-day, if not marred by adverse weather, promises to be very interesting. The rumours that had gained ground a fortnight ago about Pan having gone amiss had driven him from the position of first favourite in the Premio Resistencia, where he has to contend with Uncle Tom and Terminacion. From latest accounts, it would appear that he has got the better of his ailments and that he will come to the starting post to-day. If in his usual good form, he ought to come in first, notwithstanding the heavy allowance of 1st. 4 he gives Terminacion.

In the fillies' race Madreselva has regained her former position, and will probably start first favourite.

In the Premio Competencia, judging by the 'remates' that have taken place, last week, Nana continues to engross the public favour, but it is not at all unlikely that Waxy may get the better of her.

In the Premio Productos, Mohican, Pegaso, and Don Rafael enlist most supporters, but as they are all untried colts, there is ample room for speculation, and perhaps a surprise may be in store by the victory of an outsider.

In the last race, Gladiador will have it all his own way, since neither Diana nor Waxy are likely to come to the post.

There was considerable animation at the different sporting centres last night, and a good deal of business was don on the Handicap de Otoño to be run on the 22nd inst.

At the "Turf," 132 Cangallo, several large transactions were noted, down and the following were the closing quotations for this race:—

HANDICAP DE OTOÑO

2 to 1 against Sam Weller
2 to 1 do Filmen
4 to 1 do Nana
10 to 1 do Balakhava
20 to 1 do Glicisa
20 to 1 do Pincheira
20 to 1 do Bird

ROSARIO.

(From our own Correspondent.)

2nd May.

After a very trying month of April, May appears to be determined to make up for the discomfort we have suffered. The month of May in this country has a great similarity to the same month in the Northern hemisphere, in temperature, brillant sun, clear atmosphere, and an exquisite elastic air impregnated with oxygen. But here, alas, the comparison ends; in the north May is the spring; here it is the autumn. In the north May heralds the coming of flowers, of blossoms, of budding trees, of songs of birds, of nature's fresh perfumes, of joyous activity in all the insect tribe. In the south, nature is undressing herself for a three months' nap; the foliage of the deciduous trees turns yellow, and by the end of the month the branches are bare; the singing birds will have migrated to the forests of the Chaco, or the banks of the great rivers in Brazil; field flowers disappear, and insects go with them, the first to desert us being the jolly cicada, and the last the various tribes of the genus Culex. In the gardens the hardy Geraniaceæ and Pilargonimous embellish our May with their brilliant but scentless flowers, and the humble Chrysanthemum, half ashamed of its dark unflowery stems throughout the summer, now begins to deck itself with its white and yellow stars.

While I am writing, the bright sun is pouring his warm and cheerful rays through a depth of pure azure, without a cloud in the heavens. No May day in the Northern hemisphere can be more lovely; but there is no hum of insects, and what perfume there may be in the atmosphere is the scent of decaying vegetation.

The months of March and April were phenomenal. The former, usually so delightful after the sultry February, was this year insufferably hot and stifling, that is relatively to what we ought to have expected. The drought dried up the pastures and brought premature grey hairs on the bolls of the more delicate of the trees. The estancieros and farmers were "au desespoir," the latter especially, as the maize stalks dried up, and the potato crop remained undeveloped. Few entertained hopes that April would give us any consolation. But nature has been beneficent; instead of frosts the whole of April has been balmy, rainy and soft. The camps are covered with a well-grown verdure and the farmers' grounds are like old cheese, the plough going through them with scarcely an effort on the part of the oxen. It is true the last spurt of the Clerk of the Weather was, as I have said, trying. Such a continuance of rain and electric storms we have seldom witnessed. Everyone had the appearance of unmitigated moist disgust. It seemed as if the clouds would never "move on," or cease discharging their watery contents. For ten weary days it was

"Water, water everywhere
And much, too much to drink."

Every one had a conviction that the sun was somewhere behind the veil, but no one could express a certainty. We knew by the Almanac that the new moon was quietly increasing her girth, her virgin zone becoming too short to encompass her increasing waist; and we knew by the same infallible means that Venus, improving the opportunity of the proximity of Diana, was nightly taking 'mate' with her, and all the time our defective human vision could only reach the lower stratum of clouds, about twenty five feet over head, and never get beyond.

The Eucalyptus has elicited a considerable amount of investigation in Europe, and a deal has been written on its virtues, real or pretended. It is now nearly a quarter of a century since the tree was introduced into the Argentine Republic, I believe by my distinguished friend, Dr. Rawson, when he was in the National Cabinet as Minister of the Interior. At any rate, if not introduced by him, he was instrumental in generalizing its planting. There are now forests of Eucalyptus in Buenos Aires, and a large number in every province; and as yet no one that I am aware of has written anything on the subject, or has pointed out any special utility to be credited to the tree in this country. Is there any known reason why the Eucalyptus should be preferred to other trees? Has the wood been turned to account in the carpenters' or builders' shops? Has it been instrumental in doing away with fevers in low grounds? Does it possess any medicinal virtues? These are questions I should like to see answered, and in the mean time I will jot down my little experiences and opinions.

The Eucalyptus is not a handsome tree; its boll is not by any means symetrical; on the contrary the branches throw themselves about without any of the order inherent in the most of our forest trees. The foliage in the first two or three years is pretty and curious on account of its singular milky green colour; but as the tree ages this colour disappears and is replaced by a dark and by no means agreeable tint. One quality the Eucalyptus undoubtedly has; it-is an insatiable bibber, and will send its roots abroad in all directions and to great depth in search of water. This quality undoubtedly is the one that makes the tree invaluable in marshy places, and has consequently accredited the tree as a preserver against fevers. But this quality is by no means desireable in other places where the tree is in proximity to other plants. In fact the Eucalyptus should stand in groups alone, that is if it be worth while to propagate its culture, which I am not quite sure of. There are other trees which I believe would be of as rapid growth as the Eucalyptus, and of undoubted superiority in point of beauty and utility. For instance there is the white Canadian Maple, the beech and the silver birch, all of which ought to grow well here.

The Eucalyptus is a bore in a quinta. For the first four or five years it behaves respectably, is rather pretty, and remains on friendly terms with the neighboring plants; but as it becomes more corpulent it becomes more arrogant; it shoots up into the air its ugly straggling branches until they overtop all the neighbouring trees, while its roots extend themselves and monopolise all the moisture of the earth. I have known fine large well grown acacias and walnuts, standing at a distance of a few yards from a twelve year old Eucalyptus, to be killed by it; and as for small plants and flowers, nothing will flourish in the vicinity of these haughty and selfish trees. The Eucalyptus takes about 15 years to arrive at manhood; at least that is my experience. I have them in my quinta, (and wish now I had never planted them,) grown from seed, and twelve years old. They are from 60 to 70 feet high and from 12 to 15 inches in diameter for about 15 feet of the trunk, and none of them have flowered yet. I think they grow better in Buenos Aires than in the provinces.

W. P.

LONDON LETTER.

(Our own Correspondent.)

GENERAL NEWS.

April, 4th.

Mr. Gladstone is himself again; as far as a man of his age and still suffering from indisposition can be. Last night Sir Stafford Northcote inaugurated the 17th debate this session on the Egyptian Question. Mr. Gladstone allowed Lord Hartington to make a statement of facts, and reserved himself for a reply to Sir Stafford, and this is what is said by the *Pall Mall Gazette*:—

"By universal consent the Prime Minister never spoke with greater effect than last night, when he bore down with horse, foot, and artillery upon hapless Sir Stafford Northcote. Never was the matchless debating skill of the 'old man eloquent' more brilliantly displayed, and seldom has there been a greater demonstration of the impetuous energy which Mr. Gladstone can on occasion unloose. He is never an extinct, but sometimes a dormant, volcano. Last night he was in full eruption, and men marvelled as they saw the invalid from Coombe Warren with the House in his grasp, and all opposition overborne by the mighty rush of his resistless eloquence. The marvel is all the more marvellous when on cool reflection those who feel the glamour of his magic spell read the speech which then seemed so conclusive. For it is Mr. Gladstone's most remarkable faculty that he can construct an apparently unanswerable case out of materials which in less able hands would appear utterly hopeless."

The *Daily News* says:—

"We have not the least hesitation in saying that Mr. Gladstone has never spoken with a greater force of indignant eloquence than that with which he replied to Sir Sir Stafford Northcote yesterday. It might not perhaps be altogether courteous to say of the Leader of the Opposition that he was thrown down and trampled on by the Prime Minister, and yet we do not know of any other words which could so well convey an idea of the effect produced by Mr. Gladstone's speech. All the glow and fire and passion which are supposed to be characteristic of mere youth were in those eloquent words, and even in the tones of that voice which, striving against physical difficulties, was able by sheer energy to surmount them."

The Conservative *Standard* says:—

The Leader of the House had concluded a speech which, for vigour, energy, earnestness, and fire, was equal to any effort of his that we remember. His happiest point was, perhaps, the retort to Sir Stafford Northcote's interruption on Egyptian finance, and when Mr. Gladstone is happy in retort it is a sign that he is wholly roused. After such a speech as he made last night the Opposition is apt to be for a moment paralysed. The spell of the orator is upon the House, and no one with a reputation to lose cares to contrast his own puny efforts with those of the acknowledged champion, or to earn the epitaph

Infelix puer, atque impar congressus Achilli."

After the speech Mr. Gladstone returned to Coombe Warren and is understood to have slept well, and he hopes to be able to take part in the debate on the Franchise Bill, on Monday 7th inst. He will pass the Easter Holidays at the country seat of Mr. Leveson Gower, near Dorking.

After each such stupendous effort made by the Premier one dreads that it may be his last; and alas! whilst the House and the country ring with the praises of his oratory, the leading, and even liberal papers like the *Times* and the *Telegraph*, echo the cooler criticisms of Mr. Chaplin, who replied to his "irritated language," and confessed that after all this display of oratory, we are still in "Egyptian darkness." We are however nearing the light. The position of affairs even at Cairo, where government is completely disorganised, must force the Cabinet in London to disclose a policy either of progress or retreat.

The points in Mr. Gladstone's speech, apart from his mere castigation of Sir Stafford for obstructing the Franchise Bill, under pretence of an interest in Egyptian affairs, were, firstly, that whatever Mr. Power, in Khartoum, may say, or whatever the *Times* correspondent in Alexandria may say, Gen. Gordon has never asked for the aid of British troops. Secondly, Mr. Gladstone warmly repudiated the accusation that the Cabinet were working in the interests of bondholders, for, as he said, were it so, he would not be so bitterly attacked by a large portion of the Continental press in the hands—or, as he meant, in the pay—of certain parties—meaning Jews and so forth. Thirdly—and, I think, this is the true secret of the dilemma—he made many pointed allusions to the immense difficulties under which the Government laboured by reason of the fact, overlooked by his opponents in the House and out of it, that the question in Egypt was not solely an English question, but one in which, at every step, the path was blocked by the conflicting interests of other European Powers. He again laid the blame on his predecessors in office for having bound him, "by convention," to support the Khedive; and, as for Gen. Gordon, he like Lord Hartington, refused, in the absence of any report from that officer, to bind himself to any specific policy, or to retail fragments of information.

All that is good and true, and one has faith in what little is known of Mr. Gladstone's policy, but someone else, or he himself, is responsible for much that has occurred since the "convention," and, if it be not he, who is it? Is it the Right Hon "Joseph?" or Sir Charles? or Lord Granville, or Lord Hartington?

The *Times*, under young Mr. Buckle, whose portrait shows him to be of the south of England, arrow-headed type, is again harrying the Government towards annexation or a long Protectorate. I believe that Mr. Gladstone's difficulty is in his real desire, at the risk of letting things slide to the very last moment, to avoid any such fatal step. Unhappily, he has not had the firmness to retrace long ago the steps which at every footfall have loosened the ground, until it is now moving under his feet and carrying him and his colleagues to possible perdition.

By the way, I have not forgotten that we are all in mourning. Did I not stand up, with five thousand people, a night or two ago, in that revived Roman theatre, the Albert Hall, whilst the orchestra played the dead march in "Saul?" A grand and imposing sight.

The Prince of Wales, as you will have seen, did witness the defeat of "The Scot," and on returning to his "loge" in the Aintree Grand Stand they handed him the telegram. He turned pale and muttered "Albany's dead." He drove off in Lord Sefton's brougham, through a silent, sympathising and respectful crowd, and from that moment the poor Prince must have undergone great fatigue and worry, for he went almost straight from Croxteth to Cannes, and got back with the corpse only this morning to Portsmouth. The late Duke is to be buried to-morrow at Windsor. The Queen, after the first fit of sobbing, has wonderfully recovered her usual physical strength and spirits. It is also nonsense what you see about the Duke's accident at Cannes. He fell on the stairs at his lodgings, but that was not remotely the cause of his death. The fact is, he never liked to be known as an invalid, and most imprudently, in his delicate health he entered too vivaciously into the floral dances and fetes of the Mediterranean pleasure place. The fatigue brought on the fit of which he died—one of many he had been subject to all his life. That English papers are full of particulars and comments on the late sad event, in a style only too familiar to most of us, a style which many think creditable to the good feeling as well as loyalty of the British public, but which those of us who know more about it, and who are a little behind the scenes, are too well aware is the offspring of sheer greed and servility on the part of newspaper proprietors,

There is no Englishman who is not grieved at the death of a young man, who was not only the Queen's son, but was in every respect irreproachable and lovable; and any man of sense feels all the more disgust that the accident of his death should be utilised for business purposes, like the arrival of a white elephant or any other fetching event.

There is no late authentic news from Gordon. There are rumours that he has sustained a second reverse; but these who have some knowledge of the Soudan, do not appear to be very anxious as to his safety. I see one letter to-day says, "Gordon is disappointed findiug everything changed in the Soudan." Naturally. The whole thing appears a madness. All we can do is to hope it may succeed.

I send you separately an official account of the battle of Tamasi, published in the *Gazette*. I do not think it differs much in its explanation of the "check," from accounts you have already received.

The articles and letters in your paper, in reference to cargoes of frozen meat, have been carefully read by me. I have nothing new worth troubling you with at present, but am always on the watch to assist you, by the retailing of such facts and opinions on the subject as can be gathered in London.

There was an immense concourse yesterday in the Cathedral at the funeral service for the late Dn. Nicolas Anchorena. The church was most profusely and elaborately draped in mourning from end to end, and the ceremony was very solemn and imposing.

TERRIBLE RIOTING AT CINCINNATI.

200 PEOPLE KILLED.

A Reuter's telegram, dated N. York, March 29, states: A despatch from Cincinnati announces that a serious riot occurred there yesterday, in consequence of the popular dissatisfaction with the leniency of the verdict returned by the jury in a murder trial. The mob surrounded the gaol where some other murderers were confined. The military were called out, and were compelled finally to fire upon the rioters, several of whom were killed. The mob, however, increased in numbers, and broke into a gun store, where all the arms and ammunition on the premises were seized. The gaol is still threatened by the populace, and a bitter feeling prevails against the military. The prisoner succeeded in escaping from the train while being conveyed to a neighbouring town. Later intelligence from Cincinnati states that twenty-one of the rioters were wounded by the fire of the military. Four sustained mortal injuries, and one has since died. The prisoner, who escaped for a time, has been recaptured. He had been tried for murder, but the jury, rejecting what was considered by the public to be conclusive evidence of his guilt, convicted him of manslaughter only. Moreover, the prisoner himself confessed to participation in the crime of which he was accused. The lenient verdict, coupled with the fact that there were twenty other prisoners in the gaol awaiting their trial for murder, inflamed the people, and caused the mob to assemble. The action of the soldiers, who were in the gaol at the time, in firing upon the people has given rise to much indignant comment. It is admitted that the Sheriff had almost succeeded in dispersing the mob with the help of the police, and the intervention of the military is regarded as having been unnecessary. Owing to the state of feeling against the troops further trouble is feared, and fresh detachments of the military have been sent from Columbus and Dayton to Cincinnati. Up to the present, however, there has been no renewal of the disturbances.

Another telegram, dated New York, March 30, says: "Last night there was a renewal of a most alarming and serious character, of the rioting at Cincinnati. All through yesterday, a sullen crowd hung about the gaol which had been attacked the night before, and as darkness came on the mob increased by thousands, and the police lost all control over the people, who appeared to be bent on destruction pure and simple. They surrounded the gaol, which was held by the police, and military, and set fire, with burning oil, to the Court-house, a large building which cost a quarter of a million of dollars. The fire brigade were summoned to the spot to extinguish the flames, but the mob prevented the men from doing their work, and battered the engines to pieces with axes. The Court-houses, with many valuable records, and the library were totally destroyed. According to one account, the crowd threw dynamite bombs into the gaol which burst with terrific force, killing three of the soldiers. The rioters also sacked another gun store and set fire to it, but the fire was soon got under, and the proprietor killed several of the pillagers. It was not until after the riot had gained considerable head that the troops intervened. They then opened fire upon the mob, and also brought to bear a Gatling gun, which is reported to have made great havoc among the crowd. The gun was at one time captured by the populace, but no ammunition was obtainable, and it was subsequently retaken by the police. The number of killed and wounded is variously estimated, some reports making the figure as high as 200. Other estimates give the number killed by the troops at between fifty and seventy-five. A lieutenant of militia was killed, and several of the police and military were wounded. The disturbances continued throughout the night, and the firing was kept up on both sides. This morning everything is quiet, and many of the rioters have been arrested. A handbill has been circulated demanding that a Vigilance Committee should be formed to rid the city of the criminal classes. The unprecedented nature of the outbreak and its disastrous consequences have combined to make the affair one of absorbing interest throughout America. There is a general tendency to compare the disturbances of Friday and Saturday with those of the Paris Commune. As regards the origin of the outbreak it is explained that on Friday night an indignation meeting, attended by the respectable people of Cincinnati, was held for the purpose of protesting against the slackness in the administration of justice as exemplified in the murder trial which was just over. There was no intention of suggesting violent remedies nor did any of the speakers at the meeting counsel resort to forcible measures. However, when the meeting broke up, the cry of "To the Gaol!" was raised. Thereupon ensued a general and spontaneous movement towards the prison. Arrived there, the mob actually broke open the doors and entered the building, but the murderer whose case had given rise to the whole trouble had been previously removed. The crowd, which had grown immensely in numbers, then attempted to burn the gaol by means of oil, but the troops, as related in previous despatches, interfered and saved the building."

It appears that the reported intended duel between two well-known citizens was all a "canard," neither of them having thought of the "ultimo ratio regum" as a means of settling their differences.

LATEST FROM BRAZIL.

April 24th.

Yellow fever has shown some signs of diminishing, the burials from the 11th to the 20th having fallen to an average of 3½ per diem, against 6 to 7 per diem in the earlier part of April.

The regulation upon Trade Marks, drawn up by Conselheiro Affonso Celso and submitted to the Council of State, has been approved and will be published shortly.

The triple list for the filling of the senatorial vacancy in the representation of Minas Geraes will consist of Dr. Cesario Alvim, Dr. Ignacio Martin and Dr. Felicio dos Santos.

Dr Jeronymo Rodrigues de Moraes Jardim has received the diploma of deputy from Goyaz.

By decree 4,181 a supplementary credit of $486:292 has been opened for Public Aids in 1883—1884.

As a consequence of the appointment of Baron de Arinos as Envoy Extraordinary and Minister Plenipotentiary in Paris, Baron de Itajubá, who had charge of the legation as Chargè d'Affairs, has been hlaced on the unemployed list, perhaps to afford him time to visit his mother-in-law land, which has had the pleasure of seeing him only once.

The new Chilian minister, D. Domingos Blest Gana, had audience of presentation of credentials on the 19th.

A large amount of money continues to be spent upon journalistic articles against the ministerial proceedings for enforcing the sale of the funding of the monastic realty, and, although few now take the trouble to read articles which are merely monotonous variations upon the theme of the sacrilege committed by the civil power in presuming to deal with property which the church has pronounced its own, there will probably be some sharp criticisms in the chambers of these proceedings, which the judiciary, as well as the clerics, are disposed to consider exorbitant of executive attributes. At S. Paulo the procurator-fiscal has resigned, to relieve himself from the obligation of executing orders he judges illegal.

In March the arrivals in Rio of 3rd class passengers, classed as immigrants, were 2,533, of whom 468 were females. Of the immigrants, 1,500 were Portuguese, 649 Italians, 270 Austrians, 90 Spaniards, 18 Germans, 12 French. 543 third class passengers left Rio for abroad in the same month.

At Tieté, S. Paulo, the vicar denied burial to a corpse, on the pretext that the man had been visited by a protestant minister. The citizens, however, forced the gate of the cemetery and interred the body, and the Bishop of S. Paulo, informed of the occurrence, approved of the interment and reprimanded the 'trop de zèle' of the vicar; whose intolerance, we are glad to say, has no precedent in England, where of course, no episcopalian vicar had ever been known to refuse burial to a dissenter or catholic.

In the province of Goyaz 500 armed horsemen rode into the village of Sant' Anna d'Antas and, after destroying all the books and papers relating to the enrolment of persons liable to conscription for the army, dispersed, giving cheers to the people of Goyaz.

EDITOR'S TABLE

The weather was too fine for the season yesterday, and the odds were a new hat (black or white) to a night-cap that to-day would be thundering wet, and the races be again postponed. Too bad, if it should prove so, as no person, place, or thing, from here to Patagones, is as yet quite dry after the recent deluge, and repairing damages is the order of the day.

The "Flores Parish Magazine" for May was sent round yesterday. It can be had at Dewey's. The reading matter is, as usual, most select and interesting. Dr MacKern's paper on 'The Use and Abuse of Water" should be read and remembered by all, especially what he says about the Lacroze Baths in Calle Piedad, and the baneful effects—more particularly for children—of drinking cold water, whether at meals or other times. We strongly recommend his paper to all the mothers in town. We see that the Rev. J. Henry Davis, who came out with the intention of being licensed as Curate of the Episcopal Chapel and Second Master of the Rev. Mr. Spilsbury's Collegiate School, cannot, unfortunately, accept the post.

The grand coloured picture of the Battle of Teb that was on view in our office last week and attracted so many visitors, was yesterday, by order of the sender, presented to President Roca, who admired it very much and displayed much interest in the details. We are now expecting one of the fight at Tamanieb, a far one fight than the scrimmage at El Teb.

Number 4356 won the 10,000 pats. in yesterday's Capital Lottery.

It was announced yesterday that there is a quorum of Congressmen in town, and that President Roca will open the National Legislature to-morrow.

Messrs. Sambucetti's farewell concert at the Coliseum this evening has a splendid programme, and is dedicated to the Press of the city, so, wives and weather permitting, a crowded house is probable.

The Hon. William Barrington, Secretary of Her Majesty's Legation here, has been ordered to Lima, to act as Charge d'Affaires there, during the absence of Mr. Spencer St. John. He will leave to-morrow for Montevideo, to catch the Pacific steamer Cordillera. Mr. Barrington's departure is greatly regretted in all circles, as his genial character and urbanity secured him hosts of friends during his short stay here. We hope to see him back again soon, if it does not interfere with his promotion.

Dear Sirs,

I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.

After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

Yours truly

BY
MICHAEL G. MULHALL, F.S.S.
Author of "The Progress of the World," "The Balance-Sheet of the World," etc. with Maps and Plans. 50 Copies of this new work on sale at this Office, Standard Office, 154 Calle Piedad, Buenos Aires.

THE REASONS WHY THE HAIR falls off.—Whenever the cuticle shrinks from disease, age, or other causes, it presses hard around the stem of the hair, thereby preventing the coloring substance and vital element from passing up from the roots. In order to forestall this difficulty it becomes necessary to apply the Oriental Tonic every morning and night, combining it with a vigorous use of the brush, the object being to renovate the vitality of the cuticle and soften the versicles. This is soon attained, and the interrupted communication between the bulbs and hair is renewed, resulting in a brilliant, silky, abundant crop of tresses.

Cedulas E	80⅜
Cedulas F	86
National Bank Shares	143
Nat. Bank Certificados	58½
Municipal Bonds	80

Everything ruled firm to-day; the Scrip, Share and Cedula are going up steadily and the great ease of the money market much facilitates the operations of the bulls. Outsiders are gradually entering the speculation, and affairs are pretty lively. The Scrip recovered this morning from the weakness of the last two days. One hundred changed hands for cash at 58½, and 200 were sold for the end of the month at 59; the market closed firm at this rate. The share market opened with a firm feeling at last night's closing quotation and rose rapidly to 144; at this rate operations closed, about 2,400 shares sold. One hundred changed hands for cash at 143.

Cedulas E are as firm as a rock at 80⅜, but there is little doing; a few thousand only changed hands for cash, nothing done for the end of the month; the market looks upwards. Series F ruled firm for cash; 41,700 changed hands at 85⅛-86, and 45,000 were sold for the end of the month at 85½-⅝; the stock is firmer for cash than for the end of the month. Nothing done in Series A.

Nine thousand Municipal Bonds were sold for Monday at 80; this is a low quotation for a 6 o/o stock. Every stock in the market shews an improved value except Municipal Bonds, and the aldermen should study in the Bolsa quotation the most eloquent disapproval of their management of affairs of the city.

Small operations were reported to-day in exchange at 47½-47.9/16; the market has been singularly dull for the last six days, and prospects are duller.

The rails will be laid up to the city of Mendoza next week, and then hurrah! for the Andes; we may expect friends out from Europe then for the trip. We hear that they have more wine in Mendoza this year than would supply the whole country for the rest of the year, but the freight and price of bottles check the trade.

On Monday they announce that Congress will be opened; the President's message is a really splendid picture of the country; we shall publish it in pamphlet form in English for the benefit of our home readers and parties anxious to send copies will please send us a memorandum.

Governor D'Amico's speech is the talk of the whole Bolsa; all our friends in Trenquelauquen and Trelen and Mellisas are rather depressed at the remarks of the new Governor about not undertaking any more railways. We, for our part, attach little import to the matter, since the progress of the Province is now too firmly established to be checked by any one, even the Governor himself. There is a tremendous interest pledged to the making of the Trenquelauquen road, and the new Governor will find it convenient to respect and consult that interest. We don't want any more Government railways, but by all means let us have as many private railway companies as possible to push B. Aires ahead.

The following were the sales at the ring during official hours:—

Cedulas—

Letters received from New York by the mail announce the shipment of the first two storey wooden estancia house for the Plate. This wooden house consisting of 2 storeys, 12 rooms with verandan will be erected on an English estancia in Loreto, it will be the first of the kind in the country; its cost in Chicago is 500 pats, freight to New York 70 pats and freight to the Boca not yet stated. We shall advise our readers of the exact cost when erected at Loreto; we believe it is the cheapest cosiest and best estancia house for those camps.

The National Bank will next year pay quarterly dividends instead of the half-yearly ones. This change will be submitted by the Board to the shareholders, who undoubtedly will only be too delighted at the idea. The profits of the bank are so large that they warrant the charge.

The fine Malcolm property in Calle Florida No. 493 was sold to-day for $450,000 %; Dr. Zuirria, buyer.

Thirty-three steamers from Europe entered port in April with 3,258 passengers and emigrants; generally very few emigrants arrive at this time of the year, the figures are, therefore, remarkable.

General Racedo, Governor of the Provincee of Entre Rios, telegraphs to Messrs Lucas Gonzalez & Co. that the Entre Riano railway loan has been placed with great success in the London market.

Mr. Rufino Degreef sold yesterday the following sites in the new capital La Plata; the speculation is more active than ever; the lots sold were:—

Mr. W. Samson, agent of the Allan Line of steamers, took leave of his legion of friends; he leaves in the La Plata for England. His many friends hope to welcome him back in October.

The Bank of England, according to paper per mail, has advised the public and several foreign governments of the circulation of false £50 stg. notes. This may interest the merchants and bankers of this city.

The *Patria Argentina* devotes a useful leading article to the Argentine horse, and congratulates the country on an Argentine horse having won the cup at one of the races in England. We thank our colleague for addressing so interesting a subject and hope Mr. Kemmis will get the paper.

With much pleasure we state that Don Daniel Maxwell, Cashier of the National Bank, who has been suffering from an attack of neuralgia, is much better.

Very great complaints are made about the state of things in the Boca; it seems that two foreign ships were ordered very far up the Riachuelo and now they are in imminent danger of toppling over and sharing the same fate as the barque Evans. What is required above all things at the Boca is a thoroughly competent harbor master, and we hope Dr. Piaza will see that a proper one be at once named, as things in the Boca are in a dreadful plight.

Two gentlemen, who have just arrived out in the La Plata, leave to-day to cross the Andes; rather a dangerous trip at this time of the year.

Payments to-day were not large; although the desks were crowded the files of bank-notes in clerk's hands were much smaller than on former Saturdays. There is an evident lull in the produce market.

Provincial Government bills were discounted to-day at 9 o/o: National Government bills were done at 7½ o/o. The high rate charged for the Provincial Bills arises from the fact that these are payable in La Plata. The Provincial Government should make these bills payable in the offices of the Provincial Bank of this city.

Owing to the inclement weather and to the wretched state of the roads the arrivals of wool during the fortnight have been small. Holders of wool in the deposits, nevertheless, are making concessions as they are convinced that next month there will be few or no buyers in the market; many 'artistas' are gone and the few remaining will take flight this month. Next month all competition in the market will have disappeared, and in the absence of buyers consignatarios will be puzzled how to go rid of their consignments. The wools in deposit must go forward soon; those outside must be sent into town and sold before June. The snag-up in the market is painful to witness, and affairs are becoming daily less satisfactory owing to the receipt of unfavorable news from Europe.

Captain Green, of the R.M.S. La Plata, took leave of his friends on' Change to-day. His fine steamer leaves on Monday with a fair number of passengers; they could not choose a more comfortable or more desirable steamer to effect the voyage.

We call attention to the London wool telegram in another column; the auction proceeds slowly and with a downward tendency.

Shipments have fallen off and freights have suffered in consequence. Bales have been shipped for Dunkirk in steamer at the unprecedented low rate of 10 francs per bale. We may say that there is a crisis in shipping circles, owing to excess of tonnage. Last month no less than thirty-three foreign ocean steamers entered this port; considering this excessive number, the stage of the season and the slow egress of produce from the camp, the freight market must be in a melancholy condition of weakness.

Maize is very abundant in the province, but owing to the rainy weather it is difficult to get dry grain. In Baradero, Zarate and other ports on the river export of the grain is carried on in large quantities, in spite of the low price of the grain in Europe. In France and Belgium maize is selling at 12½ to 13 francs; last year the price was 16 to 17 frcs. Advices from London report also a weak and falling market.

Sheepskins are falling rapidly and arrivals from the camp are pretty steady. Advices from France and Liverpool are not satisfactory. The article is weak.

During afternoon the scrip of the National Bank jumped to 61; no more sellers at this rate. Very few were sold, as holders would not let go even at this high price; they now ask for 62. The advance of the scrip nearly eclipses the rise in shares.

Advices from Europe with regard to cereals continue unfavorable, but there are buyers in the wheat market here who continue to operate at prices which apparently must leave losses. Oleaginous seeds are in demand both for seed and oil. Colza, turnip and linseed are in steady demand, and any large lot of linseed disposable might be sold at high price for export. Advices from all parts of the camp, especially from the West, state that farmers are preparing great plantations of linseed; the fate of wheat has frightened them from a repetition of this season's misfortunes. Linseed is selling in the market at the rate of 20 ⅝ per @ for seed; colza at 20 to 25 ⅝, and turnip at 15 ⅝ per @. Samples of colza have been sent from Europe for plantations here; this shows that the colza remitted to France this season has attracted attention. Colza has a great future in this country, where it grows splendidly and calls for little care and expense from the farmer.

About 2,000 shares of the National Bank were sold in the afternoon and evening. The market opened at 144 and went up rapidly to 145½; here some slight fluctuations took place, when the bulls won the point and pushed the stock with ease to 146; the market closed firm as a rock, with buyers at this rate, but no sellers. The rise has staggered the bears and the bulls talk of 150 next week.

Cedulas E ruled dull in the evening; there were buyers at 80⅜, but no sellers. Series F in demand at unchanged rates, 86 for the end of the month and for cash.

From the Plaza Once de Setiembre we have the following:—
142 waggons arrived with produce.
The arrivals were:—
3,200 @ of wool
2,932 bags of wheat
2,483 bags of maize
411 bales of hay
and much other produce.
A little more business done to-day. Cow hides and cereals stustained their prices; wool and other produce continue flat.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.
Presta sobre hipoteca con reembolso á largos plazos.
Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Duran 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.
Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca remitida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo ó parte, anticipandose el contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.
Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

Continued from 1st page)

Those who keep up a correspondence with Montevideo, whether their theme be business, love, or gossip, should take note that, for the future the mail bags close, on working days, at 3.45 p.m. for registered letters, and 4.20 for the rest: For Brazil, the Pacific and "Ultramar," at 2 p.m. for registered, and 3.30 p.m. the rest. On Sundays and feastdays the hours are: For Montevideo 11 a.m. and 12 m.; for Brazil etc. 10 a.m. and 12 m.

The Immigration returns for April last show an increase of 396 newcomers over the same month last year, and yet a reduction in expenses of 238 Nats. Good for Mr. Navarro!

The "puesteros" in the markets have petitioned the Lord Mayor against the last crushing increase of taxes put on them by the Administrador de Mercados, and they say they will be forced to throw up their stalls, if not relieved. They have certainly right on their side. The increase in market taxation within the past year is monstrous, and devoid of all justice. The tame-cat population of this city suffers in silence. It is well for the Municipality that they are not in Cincinnati.

Messrs Deck and Whiting, of 'House Gymnasium' fame, have opened a 'Sucursal' at No. 118 Calle Cangallo, between San Martin and Reconquista, where their patrons will find everything fitted up in the nicest and most workmanlike manner for learning gymnastics. We recommend an early call on them.

We had a letter yesterday from Elko, Nevada, U. S., from a gentleman anxious to know if a dry goods store would pay well here, as he would like to come to Buenos Aires in that line. The d. g. business is overdone in the Capital, although there may, perhaps, be some openings for it in the Interior. Our correspondent could do better with his capital in many other ways here, if he has grit in him, which we have no doubt of.

The amount of British capital invested in various ways in the U. States and in American securities of all descriptions is roughly estimated at no less than 700,000,000 sterling.

We see a gentleman named Canwelaf in the Bankrupt Court. Of course we can, at anything and everything, and we hope the bankrupt will soon get over his troubles and be able to laugh again.

The new edition of the "Digesto Municipal" is now finished: It is the most indigestible reading that can be magined—666 pages of ordenanzas etc. This does not mean to say that Mr. Secretary Obarrio does not deserve ample praise for compiling such dreary stuff so well. The title of the book, however, should be "In-digesto Municipal," as a perusal of it is more than likely to derange the reader's liver.

We received yesterday a copy of a highly important medical publication "La Revista Argentina de Oftalmologia Practica", of which Dr. Lagleyze is editor and Mr. Arturo Billinghurst Manager. Most of its contents being technical, are, of course Sanscrit for us, but we gather that diseases of the eye are on the increase in this city to a most alarming degree.

General Sarmiento had a most enthusiastic reception on Friday in his native San Juan. The whole population turned out to welcome him, and the ladies all but smothered him in flowers. Dr. Abarracin delivered the address of welcome, and, at its conclusion, the old General gave vent to his feelings by embracing him. Everybody was so crammed full of emotion that nobody could speechify any more, and the distinguished visitor was escorted in triumph to his sisters' house, where he is staying. Few men are prophets in their own country, but General Sarmiento is an exception.

At the Corrales and Barracas yesterday the mud was still there but the waters were gone, that is to say nearly gone, as in many places they were merely going, going, and that slowly. The Barracas Bridge is in such a plight that no horse or vehicle can cross it, and the milkmen yesterday had to leave their chargers on the other side, shoulder their cans, and serve their customers on foot.

A shopkeeper at Azul, named Laburo, is under lock and key for stealing silver bits and stirrups, silver-handled 'facones,' spurs, whips, etc., to the tune of 90,000 m/c. He appears to have been a receiver of stolen goods, as many articles stolen from people in the neighbourhood are presumed to be in his possession.

Bone-flour—in other words, ground bones—is the great thing for fattening cattle in Germany now. If so, our estancieros ought to try it, as bones are plenty enough here; but as this system would involve a little, very little, trouble, it has small chance of being tried in the Plate.

Quarantine is still in full bloom here and in Montevideo, although the weather is as cold as charity, and Dr. Mallo has been a week in Monte video, trying to persuade the Oriental authorities to abolish it.

It is whispered that Signor Ferrari intends to abolish ths Free List for the Press this year at the Colon Theatre. We heartily applaud the idea, and, if it is carried out, there will be far less bosh in the papers, written by musical flats, who don't know a flat from a sharp, or a fiddle from a fugue. None are more astounded and amused at these marvellous critiques than the artists themselves.

An American paper says—"The yacht which is being built at Wilmington for the Astors is only expected to make fourteen knots an hour. The Gould yacht is good for eighteen knots an hour. The Astors are a little slow, but they have been here a good while, and they feel that dignity becomes them."

The Pomona takes down twelve convicts to start a colony at Fuerte Roca. This is the second convict colony, and great interest is felt as to how the experiment will turn out.

A Manchester firm having introduced a type writer into their correspondence department, received a latter from an indignant customer, saying—'I wan't you to understand that you needn't print letters sent to *me*. I can read writing—*even yours*—and I don't Mean to be insulted by reflections on my Mrs cation."

Remataremos con la base arriba fijada y condiciones estipuladas, esta magnifica area de campo, compuesta de una y media legua fraccion de una gran area, antes de propiedad del General Urquiza, quien la eligio, la cual es prueba suficiente de la excelentecalidad de estos campos.

Esta a corta distancia (1½ legua) del pueblo Villa Colon y a solo once leguas del Pergamino que con el Ferro Carril alli viene a quedar a un dia de la Capital, la distancia de Rojas es algo menos y alli el Ferro Carril estara abierto el 1° de Mayo.

El campo linda con la Colonia de los Sres. Aldao y Echasortu campos que fueron del Sr D. Emilio Castro y con varios Establecimientos de importancia. Actualmente existen alli varios pobladores pero sin contrata, asi que el campo puede entregarse inmediatamente.

Cremos escusado decir mas sobre la excelencia de estos campos que en calidad y valor son iguales a los partidos linderos de Rojas, Pergamino donde se vende la legua a un millon y pico.

Remataremos á la mas alta postura y dinero mitad al contado y el resto á uno y dos años de plazo, sin interés, firmando obligaciones hipotecarias (pagarés), por orden terminante de su propietario, 10,000 hectareas ubicadas en la seccion IV de territorios nacionales, fraccion D, lote núm. 19.

Todo el mundo conoce ya la citada seccion por ser una de las mejores por sus ricos y abundantes pastos y buenos aguadas, y la prueba es que hoy dia es la mas poblada de todas las secciones, siendo los principales pobladores los Sres. Antonino Cambaceres, Newton, Tornquist, Jaime Cibils, Pedro Saubidet, Drysdale y muchos otros cuya lista seria larga á detallar.

Para los que duden del valor de las tierras, les aconsejamos que lean los diarios de Nueva Zelandia (Auckland) y Australia, donde campos como estos se venden á 5 patacon s el area, que equivalen a 34000 $f treinta y cuatro mil patacones la legua cuadrada, y podran ver que los campos se venden alli hasta 12½ millones la legua.

Ademas les recordamos las ultimas ventas de la Oficina de Tierras de lo Provincia donde se han vendido campos en peores condiciones y distante 130 leguas de un puerto a 540000 $ legua.

No queremos insistir en mayores demostraciones sobre el porvenir de las tierras de este pais: cada uno debe saber lo que hace.

La venta de estas 10,000 hectareas es sin base y por lo que den, y las condiciones ventajosas para el pago.

Remataremos con la base de 2 ps. m/n oro la hectarea, por orden terminante de su dueño y condiciones que se estidulan mas abajo.

Cuatro leguas mas de 1519 cuadras cuadradas, de otra dividida en lotes de media legua, con opcion a otro lote o a toda. Estos campos estan situados a 80 leguas al Oesta proximamente de Buenos Aires y sobre la linea del gran ferro carril del Pacifico, cuyos rieles llegan ya cerca de Junin; lindan con los renombrados campos del Fortin Gainza, de los Sres. Salas y Cernadas, de los cuales estos han vendido una fraccion al precio de 10,000$ la legua cuadrada.

Los campos que venderemos quedan a 9 leguas del Fortin Gainza Posta de la galera, teniendo por lindero al Sr Don Jose Olivo, que tiene su campo poblado con 3,000 vacas, y ademas con los Sres. Oostendorp, Cesario, Runsiman, Grueben, Llorenti y otros.

Fue mensurado judicialmente el año 1877, vuelta a medir el año pasado, mojonandose entonces con mojones de fierro por el agrimensor Sr. Rodriguez.

Las tierras son ricas en negra vejetal y muy abundantes en pastos, siendo estos mezclados.

El agua se encuentra gradualmente a 2 o 3 metros de profundidad y existen alli jagueles de rica agua. Las condiciones para el pago son comodisimas, pues reconociendo cada legua 78,000 m/c uno, dos y tres años de plazo, con el interes anual del 7 o/o, el comprador solo entregara al contado la diferencia entre el precio de compra y el valor de las letras. Queremos aqui mencionar los situados los campos del Loreto y Venado Tuerto, que hacen apenas 2 años que eran desiertos y hoy puede decirse que son Colonias; tal es el aumento de pobladores que han ido a establecerse alli.

Estos campos que ofrecemos hoy, sino en mejores condiciones, cuando menos en iguales; aquellos valen hoy 12 a 16,000 pesos fuertes la legua, estos los ofrecemos por una tercera parte.

Titulos garantidos.

BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in tins only
